

## STUDENTS

### Academic Standards for Participation in Extracurricular Activities

The guidelines for participation in extracurricular activities at Coginchaug Regional High School are proposed as follows:

1. Students must maintain an overall 1.666 (C- average) each quarter.
2. Students cannot fail any course.
3. Eligibility will be based on grades earned during the previous quarter at Coginchaug Regional High School.
4. Students involved in extracurricular activities must pay any annual participation fee required. This fee will cover participation regardless of the number of activities.

Students will be ineligible to participate in all extracurricular activities (sports, activities, clubs, etc.) if they did not meet these standards. In extreme circumstances, the school administration has the authority to override this policy. However, this option will only be considered for students who have experienced grave and unusual circumstances beyond their control.

Students who do not meet the CRHS participation standard but who meet the CIAC eligibility standard (pass at least four courses the previous marking period) may earn eligibility back by participating in an academic probation process supervised by their guidance counselor and the principal. Students interested in the probation period should meet with their guidance counselor.

### Participation Probation Procedures

Students who are eligible to participate in extracurricular activities (sports, clubs, activities, etc.) due to poor academic standing but who meet the CIAC eligibility requirement (pass at least 4 classes the previous marking period) have an opportunity to earn their eligibility back. The responsibility lies with the student, and eligibility will be restored on a weekly basis based on successful completion of the program during the previous week. During the probation period, students will be responsible for the following:

1. Ineligible student must obtain an Academic Probation Waiver from their guidance counselor each week.
2. Student is responsible for obtaining all teacher signatures at the end of the school week.
3. Student must have 100% completion of all assignments in all classes as well as appropriate effort and behavior in class.
4. Student must obtain their guidance counselor's signature and return the signed waiver to the principal at the end of each week for approval. If they do not meet all three standards in any class or do not return the waiver they are ineligible for the following week.

Students involved in the probation program will need to successfully complete the process each week to restore their eligibility for the following week. Students will not be eligible to

participate in the probation process for more than one consecutive marking period. Students who lose eligibility for the first marking period will need to meet standards to be determined by the principal to earn eligibility for practices prior to the start of the school year.

Policy Adopted: December 10, 1997

Policy Revised: February 9, 2011
