

FUN AND STARS AT THE PLANETARIUM

Written by Alyssa Lecza, Grade 1

When I was two I went to a planetarium. The outside looked all blue. It looked like a store because there were a lot of cars. My family took me to the show. When I was playing with the toys I was waiting for the show. There were lots and lots of toys. Most of the toys were stuffed animals. One of the toys was a fire truck. It was as long as a real fire truck. There was a fountain. It was really fun. I watched "Where the Wild Things Are." We had fun at the planetarium show. It became dark. There were lots of stars. I saw the Milky Way. I saw every star. It was a little scary because I was two and I was afraid of the dark. I hope I can go again.
