

MY WEIRD SUMMER VACATION

I took a vacation
to the fire station
and my sister forgot her medication.
Then a dalmation
started an investigation
for my sister's medication.
He traveled around the nation!
He collected an organization.
Then he found the civilization
that stole my sister's medication
They had communication
that they found my sister's medication.
That adaptation
of the Dalmatian
that found my sister's medication
made a pretty weird summer vacation.
