For a \$5.00 donation, employees are encouraged to dress down and wear jeans with all the proceeds going to the Middlesex United Way whose goal is to raise \$10,000.00 to help those hit hardest as a result of the current economy.

Mrs. Viccaro shared a United Way article written by Eileen Bengtson, Payroll and Employee Benefits Coordinator for the District. Mrs. Bengtson has been the United Way Coordinator for the District since 1986. She has kept the employees of the District aware of the financial and physical donations that the United Way needs to continue to help people in need. Most recently, Mrs. Bengtson organized a "Diaper Drive" where she received a huge response by employees of the District. Over 40 packs of diapers were donated to our local United Way. Mrs. Viccaro said that Mrs. Bengtson is one of the District's unsung heroes.

Mrs. Viccaro shared an email from Susan Michael, Science Teacher at Coginchaug Regional High School, regarding senior Hanna Bober. Hanna was selected as 1 of 2 students set to represent the State of Connecticut at the National Youth Science Camp. Mrs. Viccaro was especially excited to share that this was the 3rd year in a row that a student from Coginchaug Regional High School was selected to attend this camp. Mrs. Golschneider and Mrs. Adams inquired how students qualify to be part of the National Youth Science Camp. Mrs. Viccaro did not know but would follow up with that information.

Mrs. Viccaro also shared that Lorrie Martin, Outdoor Science Teacher at Coginchaug, had several students compete in the National Ocean Sciences Bowl in Rhode Island this past weekend where they came in 4th place. Mrs. Viccaro commented on what a fantastic Science department the District has.

They are as follows: Examine State Agencies; Provide Full ECS Funding; Examine and Eliminate Unnecessary Mandates; Adopt No New Mandates; Explore Regionalism; Consider Greater Uses of Technology; and Plan and Fund Appropriately Statewide Magnet Schools and Choice Strategies.

Mrs. Viccaro met with 3 elementary school teachers who were interested in possibly applying for a Teaching Ambassador Fellowship Program that would take place this summer in Washington, DC. If selected they would act as Classroom Fellows and serve their regular teaching contracts with District 13 but would also need to participate in Fellowship activities outside of their regular teaching contracted hours by providing feedback on Department work, sharing their experiences with other Fellows and with the Department of Education at designated times throughout the year on specific initiatives. Mrs. Viccaro noted that there would be no cost to the District if anyone is selected.

Mrs. Viccaro received an email from an elementary school parent regarding February vacation. This parent felt that this vacation comes too soon after Christmas Break and should either be eliminated or shortened to a 2 or 3 day break. Mrs. Viccaro explained to the parent that the school calendars have already been approved for the 2009-2010 school year and it again included a February break. Mrs. Viccaro told the parent that she would bring her concerns to the Board. Mrs. Golschneider commented that the February Break issue came up a few years ago and was dismissed for many reasons, but mainly cost savings. Mr. Hicks commented that shutting down in February also helps clear out illness from the schools.

Mrs. Golschneider asked if the District did only some of the work could they only be reimbursed for that portion in the Grant. Mrs. Viccaro said that the Grant must be used as requested. Mrs. Viccaro said she was going to try and get it all together and hopefully get it all completed by the deadline. Mr. Currlin offered his assistance to Mrs. Viccaro in helping her complete the task at hand.

Mr. Fielding also shared with the Board a list of long term goals he hopes to have in place for the District in the near future one being a “1 Laptop/1 Child” program. The District would assist parents in the purchase of a laptop computer that the student would use while they are in District and take with them after they graduate. Mr. Fielding explained how this would eliminate the need for computer labs as each student would have their own computer and it would go with them to every class. Mr. Fielding said that Apple, Dell and HP all have similar programs where they work with school districts on everything from annual leases to replacement units if a lap top becomes defective.
