4. Pension Plan Review

Tom Forma of Morgan Stanley explained the current volatility in the current stock market. He distributed a document outlining S & P 500 Corrections of greater than five percent since March 2009 low. He stated that this is the biggest price drop in the Dow ever. He also distributed the document outlining annual returns and intra-year declines and explained declines versus calendar year returns. The current market is not about volatility but in the type of manager that is chosen to weather the storm. Mr. Fulton looked for information on the upside of the market to compare what is happening now. Mr. Forma stated that there is currently not a comparable upside to the market.

Mr. Forma distributed a performance report outlining the holdings in the RSD13 pension fund. He explained in detail the nuances of the report to the committee. He further explained how the district pension fund is managed and how that is related to the current state of the economy. Mrs. Flanagan mentioned that we should be paying close attention to the bottom line as that determines how the fund is funded in the next budget. We have had a volatile year and the managers did not do what they were supposed to do. However, the recommendation is to not change the strategy or the managers because the district is so well funded.

The committee reviewed Time Weighted Performance Detail and how each of the managers performed. Mr. Fulton asked that next meeting the managers might be compared to their peers that may have an influence on how the district may invest and update the strategy. Mr. Forma explained how managers operate and how they may be compared relative to each other.
Mrs. Flanagan asked how long should we ride the downturn out until we meet again. Tom replied that we should probably meet quarterly beginning in November.

5. Public Comment

Chuck Stengel asked if fees for 10B get reimbursed to the pension fund. Mr. Melnik responded that the district does not have any mutual funds so there are no fees involved.
