Mr. Moore acknowledged the significant progress that has been made and how most of the objectives have been accomplished. The board identified the items that needed to remain as part of the goal document and suggested items to be added. Some of the topics covered included: using the Next Generation Accountability System to monitor student achievement growth over time, where students are...
attending college and if they are being encouraged to apply to ivy league schools, surveying 8th graders and parents of 8th graders who do not plan to attend CRHS to understand why, maintaining a focus on action planning associated with climate survey results, continuing focus and support for equity work including consideration of a district equity policy, and aligning awards and recognition with the Portrait of a Citizen skills and dispositions.

Budget review

Dr. Serino and Mrs. Neubig reviewed the initial draft of the proposed 2020-2021 budget by reviewing expenditures by object code: certified and non-certified salaries, benefits, purchased services, buildings and grounds, operating services, supplies, equipment and capital, dues and fees and debt service, with details outlining changes from the current operating budget including reasons for decreases and increases. Projected revenue was also reviewed. Dr. Serino reviewed proposed staffing changes for 2020-2021 including areas for staffing decreases and proposed new positions or staffing increases. Mrs. Neubig also provided an overview of the minimum budget requirement for the coming year.

The board engaged in a preliminary discussion and asked questions about staffing and other areas of the proposed budget. Dr. Serino indicated that she and Mrs. Neubig would send an overview of the proposed budget to the board the following Friday and again on Monday, February 10th as there are slight changes that could be made in the next two weeks.
